

OVERVIEW

Azotel™ simplifies the business of delivering telecommunications services. We deliver solutions for everything a wireless Operator needs - other than the radio equipment. The Azotel WISPer platform enables an Operator to deliver carrier grade Broadband & Telephony services using a single box platform (Fig 1) seamlessly integrated with an access network such as Canopy from Motorola's Wi4 range or similar.

Simplification is the key to the Azotel approach. By delivering all the technology via single platform and following a prescribed simple business process, we reduce both the cost and the ability for things to go wrong. This in turn enables the delivery of a quality service to the Operator's end users.

The **AZULWISP100A** provides the Operator with a licence key for a block of 100 subscribers on an Azotel hosted WISPer Server. The licence is valid FOR ONE YEAR. Additional licences can be purchased to renew or support subscriber growth.

NOTE: AZULWISP100A does NOT operate without an Azotel WISPer client e.g. AZBWIB400.

NOTE: The Azotel hosted WISPer Server function is included as part of the AZULWISP100A. This makes it an ideal choice for new Operators as it minimizes the amount of hardware required out in the Operators network.

FEATURES

- Advanced Core Network Routing** – performs all required traffic routing.
- Bandwidth Management** – performs centrally. Complete flexibility given to Operator in setting uplink/downlink and contention ratios.
- Automated Customer Provisioning** – new customers detected by Azotel software and provisioned accordingly.
- Automated CPE Provisioning** (with Motorola Canopy)
- Network Health** - statistics collection, analysis and dashboard presentation
- Billing** – automated invoice generation
- Payments Tracking**
- Banking Interfaces** – Direct Debit / Credit Card.
NOTE: some customisation may be required.
- Configurable System Alerts** – SMS / email / Dashboard
- Usage Statistics**
- Installation and Maintenance Tracking** and scheduling
- CRM**
- Debtors Ledger**
- Multi-Language Support**

SPECIFICATIONS

Max number of subscribers/users: 100
Duration: Valid for 1 Year.
