

Azotel makes business SIMPLer for **INVIACOM** across the USA

“With our rapid growth and multi-channel opportunities moving forward, we needed a system that could support our needs to deliver best in class services to the Multi-Tenant / Multi-Dwelling Unit industry. Azotel brings the customization and flexibility that we have not found in any other solution and when you couple that with exceptional customer service, you instantly become a more efficient company. We are very pleased with our partnership with Azotel and the entire team and look forward to a long relationship with them in our adventure.”
Chris Shupe, Technical Service Director
www.inviacom.com

Overview

Inviacom focuses on delivering best in class services with a turn-key advantage for many different commercial MTU/MDU customers. Examples include Senior Living Communities, Apartments & Condominiums, Commercial & Industrial, Hotels & Resorts, Educational & Campus, Airports, Marina’s & Campgrounds.

Challenge

Inviacom is a full service wireless network integrator that provides mid-large scale wireless mesh solutions for residential, municipal and commercial applications. The company offers a completely turnkey solution, from network design and RF planning to deployment and on-going network maintenance and support. The challenge was to find a partner that could provide a single platform to address the variety of requirements presented by the diverse sector.

Solution

Inviacom was looking to Azotel SIMPLer for the Asset tracking, billing, bandwidth shaping, and overall customer management for their solution and to be a turn-key solution for multiple operators under a single Master Portal. They were also looking for a single platform to assist in the monitoring and mapping of their networks and customers. Azotel tailored the SIMPLer Platform, working in close collaboration with the Inviacom team, to once again have a leading solution in the industry.
